

WSM International S.A.

Environment Policy

The WSM International S.A. Global Environmental Policy is a core operating element for the operations of the entire WSM organization. Since 2011 the Board of Management of WSM International S.A has formulated several guidelines for environmental performance. A general environmental policy was issued in 2011 and updated in 2012. The WSM International S.A. Global Environmental Policy is a living document – it is part of the fabric of the organization and is reviewed and updated to meet the needs of our stakeholder and the environment.

0 1 Philosophy

WSM International S.A. believes that sustainable development is one of the most challenging issues facing the world. The company is committed to continuously exploring solutions to successfully balance economy and ecology.

0 2 Basic principles

Sustainable development: finding the optimal balance between ecological impact and economic growth.

Prevention is better than cure: avoiding problems at the outset.

Life cycle approach: from raw materials, to manufacturing, to use and disposal.

Cooperation: with governmental and non-governmental organizations.

03 Commitments

In the WSM International S.A. Global Environmental Policy:

- WSM International S.A. establishes technically and economically viable objectives to optimize the environmental performance of the organization's products, services and activities:
 - Product development objectives include evaluating the environmental impact over the total life cycle of a product, taking steps toward more efficient use of materials, including packaging; reducing or eliminating hazardous substances; reducing energy consumption; and contributing to improving recycling and disposal
 - Manufacturing objectives include environmentally related aspects of WSM International S.A. activities such as emissions into air and water; use of energy and water; and waste disposal while preventing pollution within our community.
- WSM International S.A. establishes and maintains environmental management systems and audits them by means of a systematic, documented verification process to ensure continuous improvement;
- WSM International S.A. is committed to complying with all applicable laws and regulations, and will promote international harmonization of applicable laws and regulations, and is prepared to enter into voluntary agreements;
- WSM International S.A. communicates its environmental policy to employees and other stakeholders, and publishes its results in environmental reports.
